

Foxhill Architectural Design Standards and Guidelines Summary

Established 12/02/2015, amended 04/26/2019 and 1/24/2020 and 12/4/2020, subject to change

These Design Standards and Guidelines have been prepared pursuant to the Architectural Control provisions of the Declaration of Covenants, Conditions, Restrictions and Easements for Foxhill Subdivision (the “Declaration”) and are intended to assist the applicant in preparing plans for submittal to the Design Review Committee (the “DRC”). Notwithstanding these guidelines, the applicant must meet the requirements of the Declaration, as well as the objective, standards, and criteria contained in the Declaration.

Pursuant to § 4.3 of the Declarations, the DRC consists of four (4) regular members and up to two (2) alternate members. All members of the DRC shall be appointed by the Foxhill Metropolitan District pursuant to the Declarant’s right to assign its power of appointment.

These are guidelines and not absolutes. The DRC is receptive to a range of architectural variation, provided that compatibility of style, detailing, quality and color are achieved. The DRC is intent on preserving the quality of appearance and property values, and this involves the avoidance of repetitive design and the encouragement of complimentary variety.

These Design Standards update, clarify and replace the Foxhill Architectural Guidelines Summary previously established on December 2, 2015 and amended on April 26, 2019. The term “Design Review Committee” or “DRC” shall be synonymous with, and shall replace, the Architectural Control Committee (“ACC”) and the Architectural Review Committee (“ARC”) referred to in previous versions of the Architectural Guidelines Summary.
